Professional Summary

WordPress Developer with 2 years of professional, hands-on experience building, maintaining, troubleshooting, and optimizing WordPress websites. Skilled at turning Figma/PSD designs into responsive, fast, SEO-friendly sites using Elementor, WooCommerce, ACF, JavaScript, and custom PHP. Comfortable with the full project lifecycle—development, deployment, migration, and ongoing maintenance—including plugin conflict resolution, failed-update recovery, malware cleanup, PHP-version compatibility, and file-permission fixes. Writes custom PHP where it improves performance and reduces unnecessary plugin dependency, keeping sites lean, secure, and easier to manage. Focused on delivering smooth user experiences and practical, client-centered results.

Technical Skills

- **WordPress & PHP:** Theme Customization, Child Themes, Custom Post Types & Taxonomies, Advanced Custom Fields (ACF), WooCommerce, Elementor / Elementor Pro, Divi Builder, Custom Widgets, Dynamic Content, Essential Addons for Elementor, ElementsKit Lite, Contact Form 7, Fluent Forms, PDF for Elementor Forms, Figma/PSD to WordPress, PHP
- **AI-Assisted WordPress Workflow:** Uses AI during Elementor-based design and development to accelerate implementation, troubleshoot issues, generate/refine custom code, and improve WordPress workflows.
- **Frontend:** HTML5, CSS3, JavaScript ES6, jQuery, Bootstrap, React (Intermediate), Responsive / Mobile-First Design, Swiper.js, OWL Carousel
- **Site Operations, Security & Performance:** Plugin Conflict Resolution, Failed Update Recovery, Malware Removal, File Permissions, PHP Compatibility, Website Migration, Backups, Hosting, cPanel, Basic SEO, SEOPress, WP Optimize, All In One Security, Limit Login Attempts Reloaded, Site Mailer, WPCode Lite, GTranslate, Regenerate Thumbnails, Bangla Web Fonts
- **Tools & OS:** Git, GitHub, VS Code, Chrome DevTools, Linux Mint, Ubuntu, Windows

Experience

Sr. WordPress Developer

Itwaybd.com | Uttara, Dhaka | Jul 2026 - Present

- Built responsive WordPress websites based on reference designs, creating custom layouts, dynamic content sections, and full WooCommerce integration including product setup, payment gateways, shipping configuration, and checkout optimization.
- Improved site speed, mobile responsiveness, and overall performance through targeted optimizations and custom code.
- Diagnosed and fixed plugin conflicts, failed updates, file-permission and PHP-version issues, malware infections, and site failures; restored compromised sites to full functionality.
- Replaced unnecessary plugins with custom PHP solutions to reduce dependency and improve long-term maintainability.
- Provided ongoing maintenance, troubleshooting, and stability improvements for client sites.

WordPress Developer

Globaitsolutions.com.bd | Banasree, Dhaka | April 2024 – Jun 2026

- Developed responsive WordPress websites using Elementor, child themes, and Elementor add-ons.
- Built custom layouts, templates, headers, footers, and dynamic content sections with Elementor Pro and ACF.
- Converted Figma and PSD designs into responsive, mobile-first WordPress websites using custom CSS and JavaScript.
- Extended Elementor functionality with Essential Addons, ElementsKit, custom widgets, Swiper, and OWL Carousel.
- Configured Contact Form 7 forms with validation and reCAPTCHA spam protection.
- Set up and customized WooCommerce stores, including products, payment gateways, shipping, and checkout systems.
- Improved website speed, responsiveness, and overall performance through targeted optimization.
- Managed website migrations, backups, hosting setup, troubleshooting, cPanel operations, and client support.

Featured Projects

Veins Group - WordPress (Elementor)

<https://veins-group.com>

Built and developed the corporate website for Veins Group, presenting its group structure, companies, services, and marine/engineering business information with responsive Elementor layouts and structured content.

Veins Marine Supply Solution (VMSS) - WordPress (Elementor)

<https://vmssbd.com>

Built and developed a marine supply and operational-support website for VMSS, with structured service presentation, vessel supply information, port coverage, enquiry flow, and responsive Elementor-based layouts.

Ventura Holdings BD - WordPress (Elementor)

<https://venturaholdingsbd.com>

Built a corporate real estate website with a scalable structure and performance-optimized layout. Delivered custom branded sections ensuring responsive design, fast loading performance, and professional service presentation.

B&B; Education - WordPress (Elementor, ACF)

<https://bandbeducation.com>

Developed a fully responsive education website under Global IT Solutions with structured content architecture and dynamic page building using Elementor and ACF. Improved UX, clean UI design, and client-specific customization.

Easy Jobs - Frontend (React, API Integration)

<https://easy-jobs-one.vercel.app>

Developed a dynamic job listing interface using React with API-based data rendering. Implemented filtering logic and responsive UI components to improve usability and interaction flow.

CSS Grid Challenge - HTML5, CSS3 (Layout Design)

<https://avroshaheen.github.io/css-grid-challenge>

Implemented advanced CSS Grid techniques to build structured responsive layouts. Focused on modern layout control and responsive design principles.

Education

Bachelor of Science (B.Sc.) in Computer Science & Engineering (CSE)

Currently Studying | A well-known university in Bangladesh

Higher Secondary Certificate (HSC) - Science

Dhaka Board | 2016 | GPA: 3.50 out of 5.00

Secondary School Certificate (SSC) - Science

Dhaka Board | 2013 | GPA: 4.81 out of 5.00

Courses

Web Developer Bootcamp 2022 (Currently 2026, Udemy, by Colt Steele)

Covered core web development fundamentals including HTML5, CSS3, responsive design, Flexbox, Bootstrap, and modern JavaScript (ES6+). Practiced DOM manipulation, event handling, asynchronous JavaScript (Promises, Async/Await), and API integration (Fetch/AJAX).

Learn Responsive Design by Web.dev

Learned mobile-first design principles, accessibility, layout strategies, and modern responsive UI techniques for real-world web applications.

WordPress Development (Self-Learning – FreeCodeCamp.org - resources)

Learned and practiced WordPress fundamentals, including PHP, Elementor and Divi page builders, theme customization, plugin configuration, and content management workflows through hands-on practice projects.
